

HARSH AJAYSING RAJPUT

Full Stack Web Developer

+91 70583 12172 | harsh567rajput@gmail.com | linkedin.com/in/harshrajput | github.com/harshrajput

Portfolio: harshrajput.dev

PROFESSIONAL SUMMARY

Full stack web developer with about two years of experience across frontend development, backend support, and troubleshooting production issues. Comfortable working in React and Node.js, and used to picking up whatever a project needs — UI fixes, API work, or digging into a bug until it's actually fixed. MCA graduate who likes shipping things that hold up once real users touch them.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java, Python, HTML5, CSS3, SQL

Frontend: React.js, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, Firebase

Databases: MongoDB, MySQL

Tools & Practices: Git/GitHub, Agile Methodology, Debugging & Troubleshooting, Application Testing, Vercel/Netlify

PROFESSIONAL EXPERIENCE

Technical Support Associate | Tech Mahindra

Apr 2025 – Present

- Work alongside the support and development teams to build and maintain frontend and backend features for live applications.
- Track down technical issues across the stack — from UI bugs to backend errors — and see fixes through to deployment.
- Pitch in on development, testing, and release tasks as part of the wider engineering team.
- Handle support and troubleshooting requests directly, keeping turnaround times short and users unblocked.

Business Developer / Operational Associate | Earnow

Oct 2024 – Apr 2025

- Kept the application running day to day, including UI updates built with HTML, CSS, and Bootstrap.
- Watched application workflows for issues and stepped in whenever users flagged a problem.
- Worked closely with different teams internally to keep operations moving without friction.
- Tested changes before they went live and caught a few problems early because of it.
- Put together daily reports to keep track of how things were performing operationally.

Web Developer Intern | Pearlrain Digital LLP

Feb 2024 – Jun 2024

- Built responsive web pages using HTML, CSS, Bootstrap, and JavaScript.
- Paired with senior developers on UI improvements and bug fixes — this is where I really learned to read other people's code.
- Tested pages and cleaned up UI issues before each release.
- Picked up Git and Agile basics on the job while helping maintain the application.

EDUCATION

Master of Computer Applications (MCA)

2024

Fergusson College

CERTIFICATIONS

- Software Engineering Job Simulation — Accenture (via Forage)
